

IR-10013 Single Line Sign

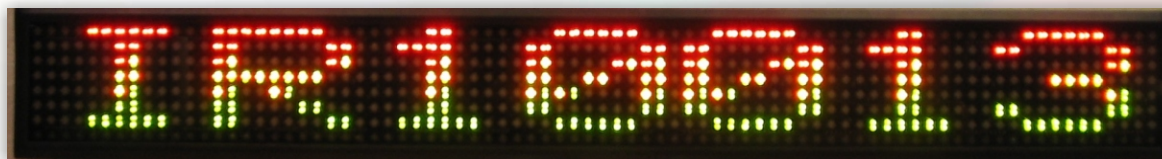

The IR-10013 is a single line, low cost mono or tri-colour matrix display with a wealth of programmable features with two methods of programming - infra-red and PC.

Red

Yellow

Tri-Colour

Ideal for providing visual announcements in public areas for retail outlets, the IR-10013 can scroll messages in either single or multiple colours. Up to 8 colours, 7 font sizes and 24 display styles can be used to attract attention to your message.

Message sizes up to 7000 characters can be stored in up to 99 files. Each file can be displayed in a timed sequence in any order based on time-of-day. 10 sequence files can be created. The sign can display pre-programmed graphics characters as well as allowing custom graphics to be created.
