

## Infoboard

### Features

The Infoboard is ideal for displaying a wide range of information using special effects such as rolling or flashing. Due to greater flexibility and functionality, these displays are far superior to conventional signage.

The Infoboard, which can display multiple pages of text, is suitable for a wide range of applications including:

- Shop counters
- Real estate windows
- Office or reception areas
- Hotel lobbies
- Travel agents

The display is controlled by easy to use Windows-based software via a range of communication options such as; RS232, RS485, LAN or Wireless LAN. Once programmed the displays can be moved and placed in any location making them extremely versatile.
